

## SUMMARY

Full Stack Developer with strong command of JavaScript, Vue.js, Node.js, and SQL. Experienced in building scalable web applications, RESTful APIs, and user-centric features. Quick learner and effective team player with hands-on internships in real-time development.

## TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Databases:** MySQL, MongoDB
- **Development & Frameworks:** HTML, CSS, Node.js, Express.js, React.js, Vue.js
- **Developer Tools:** Git & GitHub

## Experience

### Full Stack Developer Intern

Apr 2025 - Present

KaushalGanga System Private Limited | New Delhi

**Tech Stack:** Node.js, Vue.js, SQL

- Developing and maintaining full stack web applications using **Vue.js** for the frontend and **Node.js** with **SQL** on the backend
- Collaborating with senior developers to build scalable **APIs**, implement user interfaces, and manage data flow between client and server.
- Participating in code reviews, daily stand-ups, and agile development practices.
- Gaining hands-on experience in **RESTful API** development, database design, and role-based access control systems.
- Worked with relational databases (MySQL) to create, manage, and optimize data storage and queries.
- Participated in code reviews, debugging sessions, and deployment processes to ensure quality and performance.

### Web Development Intern

Jun 2024 - Aug 2024

Celebal Technologies | Delhi

- Node JS, Express, MongoDB
- Built and optimize **RESTful APIs** using **Node.js** and **Express.js**.
- Worked with **SQL** to manage and organize data effectively.

## Project

### Project Management System (PMS)

Apr 2025 - July 2025

**Tech Stack:** Vue.js, Node.js, Express.js, MySQL

- Developed a full-stack Project Management System for team collaboration, task tracking, and workflow optimization.
- Built interactive front-end features with **Vue.js**, including project dashboards, task boards, and real-time updates.
- Designed and implemented a **RESTful** backend using **Node.js** and **Express.js**, with **secure user authentication** and role-based access.
- Utilized **MySQL** for relational data storage, handling entities like users, projects, tasks, timelines, and comments.
- Implemented **real-time** notification system using **Socket.IO** for instant task updates and alerts, enhancing collaboration and responsiveness in the Project Management System.
- Implemented features like deadline reminders, activity logs, and task status tracking to streamline project workflows.

### StudyNotion

10 Jan 2025 - 10 Mar 2025

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, Razorpay, Cloudinary

- Built a scalable and responsive ed-tech platform enabling users to create, consume, and rate courses, using the **MERN stack**.
- Designed and implemented secure user authentication (**JWT**, **OTP**) and role-based access for students, instructors, and admins.
- Developed **RESTful APIs** for course management, user actions, payment processing (via **Razorpay**), and media storage (via Cloudinary).
- Created dynamic and responsive UI components using **React.js**, **Tailwind CSS**, and **Redux** for state management.
- Used **MongoDB + Mongoose** for database design and schema modeling of users, courses, and enrollments.
- Ensured clean, maintainable codebase with proper **API structure**, **error handling**, and **testing** strategies.

## CODING PROFILE

- **GeeksforGeeks:** Solved 300+ Problems

GeeksforGeeks: [virajamc9er](#)

## ACHIEVEMENTS

- Secured the AIR **1909th** in MCA **NIMCET** Entrance Exam 2023
- SQL (Basic) Certificate

## EDUCATION

### Master of Computer Applications (MCA)

Jagan Institute of Management Studies (JIMS), Rohini Sector 5, Delhi

2023 - 2025

85.00%

### Bachelor of Computer Applications (BCA)

K.K. Vigyan Avam Vyavsaik Adhayayan Mahavidyalaya MP, Indore

2019 - 2022

67.00%
